

airlive® USB-25G Driver Free Installation

1. Plug the driver-free USB-25G adapter into the computer's USB port.

Note: When using the PC, it is recommended to insert the adapter on the back of the computer case, the effect is better!
(The USB interface on the front of most desktop computers is insufficient or unavailable)

2. If the Drivers do not automatically install when you connect the USB-25G to the host computer, a message that a Virtual CD is loaded will appear.
3. Click to open the folder or run the install file RTK_NIC_DRIVER_INSTALLER.sfx.exe directly to begin the background installation.

4. After the installation is successfully finished the USB-25G is ready for use.

For the best speed performance it is suggest to use a USB 3.0/3.1 port on your computer.
